

# **Graham Vickers and James Pratt**

## **Project Review**

### Animation Process

- The design behind our animation was to be sleek and eye catching.
- We wanted a sweeping motion to be overlaid upon the logo.
- As well We wanted to top it off with a sweeping light.

### Schedule

- Our schedule just consisted of 2 brief work sessions. Nothing too drastic.
- Our budgets for this assignment was the cost of an Adobe suite subscription.

### Resources

- Adobe creative suite
- Template files
- Computer

### Research

- Our research was solely based on what was done in class.

### Post-Production

- Our animating and post production tied into one.
- We had a few minor transitions to complete, topped off with our lighting effect.
